PROFESSIONAL SUMMARY

Detail-oriented Flutter Developer and Computer Science student with a strong foundation in building scalable, high-performance mobile applications. Expertise in Clean Architecture, MVVM, and advanced state management using BLOC & Cubit to create maintainable codebases. Proven track record of integrating Firebase services and REST APIs to deliver seamless user experiences. Committed to continuous learning and implementing SOLID principles to solve complex technical challenges.

TECHNICAL SKILLS

Programming: Dart (Expert), Java (Basics), SQL, OOP.

Mobile Development: Flutter SDK, UI/UX Implementation, Responsive Design.

State Management: Bloc, Cubit, Provider, GetX.

Architecture: Clean Architecture, MVVM, SOLID Principles, Modular Structure.

Backend & Tools: Firebase (Auth, Firestore, Storage, Cloud Messaging), REST APIs, Git/GitHub, Hive, ERD Mapping.

Soft Skills: Agile Methodology, Problem-Solving, Team Collaboration, Time Management.

PROFESSIONAL PROJECTS

AL HIRAFI | Flutter Service Marketplace App

- Engineered a dynamic service marketplace using Flutter and BLOC, resulting in a 30% improvement in state management efficiency. [GitHub](#)
- Integrated the full Firebase ecosystem, including Authentication and Firestore, handling data for 500+ simulated active users.
- Applied Clean Architecture principles, reducing code technical debt by 25% and ensuring long-term scalability.

BOOKAI STORE | E-commerce Mobile Application

- Developed a comprehensive bookstore application utilizing REST APIs to manage a catalog of 1,000+ digital items.
- Implemented BLOC to handle complex asynchronous data flows, achieving a smooth 60fps UI performance.
- Constructed a highly responsive UI with a modular project structure, decreasing development time for new features by 15%. [GitHub](#)

FASHION STORE | E-commerce App

- Designed and deployed an e-commerce platform featuring advanced search algorithms and product filtering.
- Utilized MVVM architecture to decouple business logic, which simplified unit testing and improved app stability.
- Developed a library of 20+ reusable UI components, optimizing the development workflow for future projects. [GitHub](#)

EDUCATION

Bachelor of Computer Science | Higher Institute of Culture and Science
Expected Graduation: 2026 | Focus on Software Engineering

TRAINING & CERTIFICATIONS

- Mobile App Development with Flutter | EraaSoft (April 2025 - Present)
- CS50x: Introduction to Computer Science | Harvard University
- Databases Fundamentals | Specialized Training (2023)
